Six Degrees of Freedom (6 D.O.F.)

roll / pitch / yaw / heave / lateral / longitudinal

The X6 simulator is fabricated from aluminum and fitted with hard-wearing components for long durations of maintenance-free operation. A variety of controllers can be quickly and easily exchanged. With the machine itself weighing only 130 kg, it is capable of carrying persons weighing up to 150 kg. The X6-CRS is intended for heavier loads. The ultimate 6-Axis Simulator. An authentic driving experience, it feels just like a real vehicle with stunningly realistic movements. You will be amazed when you sense the full movement of every driving maneuver. Tested by professionals. Never steered a motion simulator before? This one offers total realism. The blue LED lighting lends the X6 a special atmosphere during the simulation. In single or twin-pack: because it requires only a small amount floor space, two or more drivers can compete with one another on the network.

Ready for all simulation games

The simulation software profits from the latest technology and advanced developments of the physics. With actual values for physical attributes, your experience on the X6 simulator is just like on a real Formula 1 circuit. It is unbelievably realistic. The graphics set a spectacular visual benchmark, contributing further to the realism. Programming of custom simulation software, casual games, motion rides, "personalized" sections of scenery from aerial photography.

Computer Systems

High-end technology of industrial quality is built into the X6 chassis. We also incorporate high-end PC/Shuttle systems (operating system English), which are custom-produced with high-performance graphic cards for continuous service.

Interface

A personal profile can be defined for the interface of each vehicle type of aircraft model containing the acceleration factors for beginners, amateurs and professionals, to simulate an even more realistic ride.

Controllers

A variety of top range controllers are employed for the simulations e.g. Logitech G27 for racing simulations and products from Saitek for flight simulations.

Seats

In most cases we install seats by RECARO in our simulators, but can alternatively include actual automobile seats (car feeling) with forward/back adjustment rails.

Features

- Bass pump shaker and active speakers with built-in amplifier
- 5.1 sound system with built-in speakers
- Adjustable steering wheel & foot rest
- LED or RGB lighting
- Various colors
- 3D Simulation

Video output

- 60" 2D/3D designer rack with TV lift
- 55" 3D Full HD LED-TV
- Screen and projector
- Touch screen (digital)

Services

- The X6 is approved by TÜV (technical safety inspection) and is "Made in Germany"
- Our simulators are delivered "ready to start"
- Mobile or "fixed base" (network gaming)
- EC declaration of conformity
- Operating instructions
- Checklist for before events
- Worldwide support

X6-CRS (control regulate system)

- automatic regulation
- feedback control system
- precise positional determination
- motion cueing / wash-out-filter
- elevator effect (e.g. for the helicopter simulation)
- simulation motion & controlling technology
- automatic adjustment for the weight of the person currently seated

Maintenance free ♦ Guaranteed to be a magnet for the public ♦ Higher utilization and profits ♦ Fun? Hightech? Inside!

- ◆ long time fun ◆ simple to operate ◆ for network gaming ◆ high quality German industrial products ◆
- ◆ adjustable, for children and adults ◆ industrial air pneumatic cylinders (muscles) for better movements ◆
- ◆ Recaro seat or flight seat ◆ industrial air compressor ◆ Maintenance free ◆ German TÜV-certified ◆

SIMULATOR - DESIGN / TYPE			
MODUL & TYPE No.	VERSION	DESCRIPTION	PRICE PER UNIT
	X6 Motor Racing Simulator for Formula 1, DTM and Rally	X6 Simulator incl. Recaro Seat; G27 Logitech controller; motor racing software LFS (LiveForSpeed); NOT including 8bar oil-free compressor and without blue LED <i>(Version 2) - retrofittable for all games and controller</i>	
	X6 Motor Racing Simulator for Formula 1, DTM and Rally	X6 Simulator incl. Recaro Seat; G27 Logitech controller; motor racing software LFS (LiveForSpeed) with blue floor LED; NOT including 8bar oil-free compressor <i>(Version 2) - retrofittable for all games and controller</i>	
	X6 Roller Coaster Simulator for rollercoaster, motion rides, real fantasy simulation	X6 Simulator incl. Recaro Seat; G27 Logitech controller; roller coaster software NoLimits with blue floor LED and roller coaster clamp; NOT including 8bar oil-free compressor <i>(Version 2) - retrofittable for all games and controller</i>	
	X6 Flight Simulator for Glider, Cessna, Boeing, Airbus, Jetfighter	X6 Simulator incl. Recaro Seat; flight controller set (Saitek), software X-Plane with blue floor LED; NOT including 8bar oil-free compressor <i>(Version 2) - retrofittable for all games and controller</i>	
	X6 Flight Simulator for Helicopter	X6 Simulator incl. Recaro Seat; flight controller set with collective, cyclic, rudder pedals (Flight Link); software X-Plane with blue floor LED; NOT including 8bar oil-free compressor <i>(Version 2) - retrofittable for all games and controller</i>	

SIMULATOR - DESIGN / TYPE			
MODUL & TYPE No.	VERSION	DESCRIPTION	PRICE PER UNIT
	X6-CRS with control regulate system optimal solution for Flight Simulation, Industry	<ul style="list-style-type: none"> • X6 automatic regulation • feedback control system • precise positional determination • motion cueing / wash-out-filter • elevator effect (e.g. for the helicopter simulation) • simulation motion & controlling technology • automatic adjustment for the weight of the person currently seated (Version 3) - <i>retrofittable for all games and controller</i>	
	X6-3 Flight Simulator High Tec Motion Simulator incl. motion Cueing/wash out filter	X6 Simulator incl. control regulate system optional with projection surface and beamer (Version 1)	
	X6-Z Traffic School Simulator for traffic schools and training	X6 Simulator incl. Recaro Seat; G27 Logitech controller (wheel, pedals, gear-shift; traffic school software (optional with special vehicles software), projection surface; projector with stand; warping software; including 8bar oil-free compressor (Version 2) - <i>retrofittable for all games and controller</i>	

SIMULATOR - PACKAGE - http://x6-simulator.com/en/basics/packages/			
MODUL & TYPE No.	VERSION	DESCRIPTION	PRICE PER UNIT
		<ul style="list-style-type: none"> • 3D Package with 55" Display • 3D Package with 180° field of view • Coin Box Package or Card-Reader-System • Fixed Base – Network Gaming in a FEC • Flight Simulation with HMD and Tracking System – Real and/or VR View • Helicopter Simulation with HMD and Tracking System – Real and/or VR View • Traffic School Simulation with 180° field of view • Theme World – Personal Ride in an Art-World Simulator • Motion Ride with Player – to make motion rides yourself 	

SIMULATOR - Add Ons - In Touch With The Future			
MODUL & TYPE No.	VERSION	DESCRIPTION	PRICE PER UNIT
	3D CURVED SCREEN 160" driving view system for 3D Simulation & 2D	Functional presentation with 160-degree display. An adjustable curved display that is suited for most types of vehicles smaller than trucks is set up in front of the vehicle. Two projectors that deliver full HD resolution provide an impressive picture over the entire screen. The Comfort version includes a projection screen, which is adjusted to the desired size using remote controlled electric motors, PC and sound system.	
	3D DISPLAY 55" LED TV for 3D Simulation & 2D	3D Display with 2 Shutter Glasses optimal with our special display stands for events or fixed bases (Optimized for our 3D simulation games included license and driver We produce also Designer Rack's with TV-lift for different displays 2D/3D 3D DISPLAY STAND optimized for 3D displays	
	Glasses-free 3D displays Auto-stereoscopic display technology (22" to 65")	3D Display without Shutter Glasses (Optimized for our 3D simulation games with driver) We produce also Designer Rack's with TV-lift for different displays 2D/3D	
	DISPLAY STAND colored silver	Display Stand for LED-TV / TFT / Plasma (transportable with heavy duty castors)	
	PROJECTOR all sizes	2D & 3D Projector (Beamer)	
	PROJECTOR STAND colored silver	Projector (Beamer) Stand for LED-TV / TFT / Plasma	
	Oil free compressors small portable system Silent Air Box	Air compressor 8bar (63dB) 220l/ maintenance free optimal for Events and Exhibition, 1 mobile compressor per simulator mobile air station (transportable with heavy duty castors) optional or available Silent Air Box per X6 / opt. one compressor for two simulators	
	OIL FREE COMPRESSOR big portable system	Air compressor for 2-8 X6 Simulators mobile or fixed base station - 1 Compressor for all simulators mobile air station, optimal for network gaming party	
	FIXED BASE STATION Compressor Installations System for all simulators	Fixed base Kaeser compressed air station optimal for Entertainment Center	

SIMULATOR - Add Ons - In Touch With The Future			
MODUL & TYPE No.	VERSION	DESCRIPTION	PRICE PER UNIT
	3D DISPLAY STAND for 55"/60" 3D Display stands	Color: Silver or desired colour RAL, Height 180cm, width 110cm, depth 100 cm, weight 40kg with capacity up to 50" display and holder for Fixed Installation; Inside illuminated with RGB LED color or blue, cable installation inside; Front screen milky acrylic glass; by sight between the sides with cutout	
	WHEEL HOLDER Adjustable Wheel holder	Motor Race Simulation Holder Modified for Logitech G27 with adapter plate optimal for cables included the adapter plate and distance holder wheel holder plate goes up/down & forward/backward	
	CONTROLLER SET for Helicopter Simulation	Flight Simulation Controller Set Modified collective, cyclic, rudder pedals and with adapter plate	
	CONTROLLER SET for Cessna	Flight Simulation Controller Set Modified flight yoke and rudder pedals with adapter plate optimal for cables are the adapter plate and distance holder	
	CONTROLLER SET for Boeing, Airbus, Jetfighter	Flight Simulation Controller Set Modified flight Stick and yoke and rudder pedals with adapter plate optimal for cables are the adapter plate and distance holder	
	CONTROLLER SET for Motor Racing	Motor Race Simulation Controller Set Modified wheel and pedals (gear shift plate are extra) with adapter plate optimal for cables are the adapter plate and distance holder	
	DISTANCE HOLDER for all Controller Sets	Optimal for all cable and to fixed the adapter plate available in different versions	
	ROLLER COASTER CLAMP for Motion Rides and Roller Coaster	Roller Coaster and Motion Ride Clamp optimal for cables and with adapter plate and distance holder	
	BASS PUMP SHAKER Bass Pump Vibrations Kit	Bass Shaker with active booster for aviation, driving, off road, motion ride`s with rumble effects feel the sound from every simulation in your body	

SIMULATOR - Software in 2D - more games on request			
MODUL & TYPE No.	VERSION	DESCRIPTION	PRICE PER UNIT
	DIRT COLIN MCRAE motor racing off road simulation	A top-class off road racing simulation. Experience the classic rally event in a buggy or a truck. Mountain races at Pikes Peak and knockout competitions with Crossover are guaranteed to get the adrenalin pumping. Publisher: Codemasters	
	GT LEGENDS motor racing classic simulation	Drive one of the classic sports cars of the 60s and 70s e.g. with a Ford Mustang or an AC Cobra. True in their detail, various reproduction racing circuits are available for selection, such as the Nuremburg Ring and the Hockenheim. Publisher: SimBin	
	GTR 2 motor racing simulation	Superlative drive characteristics distinguish GTR 2, which is the official simulation of the FIA GT racing series. Publisher: SimBin	
	LIVE FOR SPEED motor racing simulation	This exceedingly comprehensive game focuses on reality and offers vehicles ranging from street cars to high-performance speedsters as well as a variety of circuits (formula one, city, etc.) Publisher: LiveForSpeed.net - <i>update for OCULUS RIFT coming soon</i>	
	RACE 07 motor racing simulation	The Official WTCC Game features the full FIA WTCC season of 2007 including all cars and tracks, as well as several new support classes and tracks from all over the world. Publisher: SimBin	
	RICHARD BURNS RALLYE motor racing simulation	A top-class off rallye simulation. Experience the real rally event. Tactic, intelligence and endurance but also velocity, aggressivity and risk is guaranteed to get the adrenalin pumping. Publisher: Codemasters	

SIMULATOR - Software in 2D - more games on request			
MODUL & TYPE No.	VERSION	DESCRIPTION	PRICE PER UNIT
	DiRT 2 COLIN MCRAE motor racing off road simulation	DiRT 2 is set to take off-road racing games to a new level, with new race types, big event atmosphere, speed machines. Drive worldwide of the best places. Knockout competitions with Crossover are guaranteed to get the adrenalin pumping. Publisher: Codemasters - <i>update for OCULUS RIFT coming soon</i>	
	DiRT 3 COLIN MCRAE motor racing off road simulation	DiRT 3 is set to be the most diverse and exhilarating off road racing experience ever with sensational gravel, mud and dirt events. Race in challenging, drifting and with all 12.4 miles of the world famous Pikes Peak international. Publisher: Codemasters - <i>update for OCULUS RIFT coming soon</i>	
	RACE DRIVER GRID motor racing simulation	Drive with powerful race cars, current and classic, circuit and drift, every moment from the adrenalin rush at the start lights to the elation at the chequered flag. GRID is all about the race. Publisher: Codemasters - <i>update for OCULUS RIFT coming soon</i>	
	F1 2010 motor racing classic simulation	F1 2010 includes all of the official teams, drivers and circuits from the 2010 season, new teams and brand new circuits. In F1 2010 gamers will take on the full, expanded grid in a variety of game modes including Grand Prix, Championship, Time Trial and an extensive, innovative Career mode, also features a highly advanced damage model, fully dynamic weather system and extensive competitive multiplayer options. All cars, all stars, detailed laps, network racing or online. Be the driver, live the live. Publisher: Codemasters	

SIMULATOR - Software in 2D - more games on request			
MODUL & TYPE No.	VERSION	DESCRIPTION	PRICE PER UNIT
	SPACE SIMULATION - Moon Patrol real fantasy simulation casual game	Space Simulation - Moon Patrol Version 1 - pick up the flying customer logo in the orbit (90sec) Version 2 - pick up the flying customer logo and clear the way, destroy the comets and the space ships first person shooter (90sec) Publisher: VR PROJECT	
	NO LIMITS roller coaster simulation	There are over 40 different rides and coasters to thrill you, even a ride on a motorcycle. You pull down the safety bar and slowly the simulation begins until the motors scream and off you go. Publisher: MAD DATA	
	X-PLANE 10 flight simulation	X-Plane - Ultra-Realistic Flight Simulation The world's most advanced flight simulator for Gliders, Cessna, Boeing, Jet Fighter, Helicopter, and many more Publisher: Laminar Research - <i>update for OCULUS RIFT coming soon</i>	
	MICROSOFT FLIGHT SIM X flight simulation	Microsoft Flight Simulator X - flight simulation for Gliders, Cessna, Boeing, Jet Fighter, Helicopter, and many more Publisher: Microsoft Games	
	IL2 STURMOVIK - 1946 flight simulation	You take off and land from aircraft carriers and land-based airstrips. Suitable for players at all levels of experience. Players can adjust the levels of realism and difficulty according to their own wishes. Publisher: Ubisoft	

SIMULATOR - Software in 3D - In Touch With The Future - more games on request			
MODUL & TYPE No.	VERSION	DESCRIPTION	PRICE PER UNIT
	SPACE SIMULATION - Moon Patrol real fantasy simulation casual game 3D	Space Simulation - Moon Patrol Version 1 - pick up the flying customer logo in the orbit (90sec) Version 2 - pick up the flying customer logo and clear the way, destroy the comets and the space ships first person shooter (90sec) Publisher: VR PROJECT Included 3D license and driver	
	MARS FLIGHT Motion ride 3D	Motion Ride - Mars Flight (Spaceflight) Space Simulation over 3 minutes from the Earth to the Mars with sound effects, Space expedition, first person view (180sec) Publisher: VR PROJECT Included 3D license and driver	
	NO LIMITS roller coaster simulation 3D	There are over 40 different rides and coasters to thrill you, even a ride on a motorcycle. You pull down the safety bar and slowly the simulation begins until the motors scream and off you go. Publisher: MAD DATA Included 3D license and driver	
	GTR 2 motor racing simulation 3D	Superlative drive characteristics distinguish GTR 2, which is the official simulation of the FIA GT racing series. Publisher: SimBin Included 3D license and driver	

SOFTWARE - Service & Support			
MODUL & TYPE No.	VERSION	DESCRIPTION	PRICE PER UNIT
	SDK Software Development Kit with player to make motion rides yourself	Development environment with licence key Publisher: VR PROJECT Included license and driver	
	Software Programming/ Real Fantasy Simulation/ Casual Games	Visit your building and area in 2D or 3D Virtual reality flights and/or presentation, etc. Publisher: VR PROJECT Included license and driver	
	Cinemizer® 2D & 3D Games incl. Head tracker	The new 3D Virtual Reality video glasses fitted for our simulation games in 2D or 3D Simulation available: X-Plane V10.2 (2D/2013) Publisher: ZEISS Included head tracking, license and driver	
	Oculus Rift® Virtual Reality Headset incl. Head tracker	Oculus Rift is a new virtual reality (VR) headset designed specifically for video games that will change the way you think about gaming forever. With an incredibly wide field of view, high resolution display, and ultra-low latency head tracking, the Rift provides a truly immersive experience that allows you to step inside your favorite game and explore new worlds like never before. Publisher: Facebook - <i>OCULUS RIFT coming soon</i> Included head tracking, license and driver	
	Programming according to customer wishes is possible	Various sceneries (in 2D or 3D); integration of customer simulation software with geometry-data; underwater voyage - steer a submarine through the coral reef; helicopter flight over your own city; experience flights over vacation regions; motion rides; fantasy and virtual reality rides; sales and product presentations; reconnaissance flights; fantasy and real simulation, casual games; event courses; single - multiplayer modes; network gaming; Internet gaming Publisher: VR PROJECT Included license and driver	

SIMULATOR - Shipment - Boxing			
MODUL & TYPE No.	VERSION	DESCRIPTION	PRICE PER UNIT
	TRANSPORT BOX One way type 1 for Simulator	Simulator transport box standard (basic material / density 11mm/OSB) (LxWxH) approx. 170x130x160cm Weight 60kg / incl. simulator 190kg	
	TRANSPORT BOX One way type 2 for Simulator	Simulator transport box standard (solid material / density 18mm/OSB) (LxWxH) approx. 170x130x160cm Weight 80kg / incl. simulator 210kg	
	TRANSPORT BOX Multi way type 3 for Simulator	Simulator transport box multi way with loading ramp (material density 18mm/class UTIPIN) (LxWxH) approx. 170x130x160cm with loading-ramp, Weight 100kg / incl. simulator 230kg	
	TRANSPORT BOX One way type 1 for Projector stand	Projector stand transport box standard (basic material / density 11mm/OSB) (LxWxH) approx. 215x75x70cm Weight 30kg / incl. beamer stands 65kg	
	TRANSPORT BOX One way type 2 for Projector stand	Projector stand transport box standard (solid material / density 18mm/OSB) (LxWxH) approx. 215x75x70cm Weight 38kg / incl. simulator 75kg	
	TRANSPORT BOX Multi way type 3 for Projector stand	Projector stand transport box multi way with loading ramp (material density 18mm/class UTIPIN) (LxWxH) approx. 215x75x70cm with loading-ramp, Weight 45kg / incl. simulator 80kg	
	TRANSPORT BOXES	For all products on request	

Delivery time approx. 8-10 weeks
All prices are in EURO, and net of additional VAT, DO NOT include packaging and shipping
The payment of the total amount follows firm order placement
Thank you and please feel free to contact VR PROJECT with any questions or concerns
